

TOTAL COUNT ROOM CASH MANAGEMENT

THE ACCOUNTABILITY YOU NEED... THE PROCESS THAT MAKES SENSE.

CashPro software is your low cost, highly efficient count room management software solution. Interfacing to nearly every slot accounting system and high speed currency counter on the market today, there has never been more flexibility in the count room than with CashPro. Originally developed in 1998, CashPro has been battle-tested and is ready to enhance your count room operations today.

CashPro interfaces with most currency counters and sorters — such as the G&D BPS C4, Glory UW-500/600 Series, and the Laurel K4/K8 Series as well as desktop currency counters. Perform critical soft count operations quickly, conveniently and reliably in your casino with CashPro.

Minimize mistakes. Maximize flexibility.

Don't work harder, work smarter.

CashPro's user friendly display makes entering data easy and reduces errors.

FEATURES

- Simple, push-button operation
- Comprehensive report package
- Extremely flexible interface
- Connect up to two different currency counters
- Counts mixed tickets and cash in one pass
